### **Summary**

This award specifically relates to organisations that can demonstrate that they have excelled in Rating, Valuation and Property Advisory Services. The submission should show how the team and its members are facing up to the ever-changing world; particularly when dealing with changes in legislation and adaptations of working practices to accommodate these changes. It should provide a clear explanation to the Panel of what has been achieved, by whom and how it compares to other organisations.

### **Submission**

The submission should include a brief description of the service and its size. It should summarise exactly why the team believe they should be recognised with an award in Excellence in Rating, Valuation and Property Advisory Services.

It must set out how the organisation has delivered on excellence through its approach to the area(s) identified. There needs to be a focus on key areas of development either within the organisation or with other stakeholders. A clear explanation of how success has been achieved must be evidenced. This might be purely on an ongoing basis, or may include the following:-

- Strategy
- Delivery
- Research and Development
- Innovative approaches
- Results
- Culture Change

The Awards panel will be looking for a clear explanation of what has been achieved and how the organisation has achieved its objectives or met stakeholder expectations.
